STRIKE TODAY AT POTOMAC YARDS

Three Hundred Men Walk Out Tying Up Traffic

MAY ADJUST TODAY

Probable That Employes Will Return to Work Tomorrow.—Ask Minimum Wage of 85c an Hour.

BULLETIN

The strikers late this afternoon decided to return to work on the information received from the national officers of the association. Some of the men returned to work at 4 o'clock this afternoon and others will go later This therefore, ends the strike.

Three hundred employes of the Potomac Railroad yards, who are employed by the Richmond, Fredericksburg and Potomac Railroad, went on a strike at 7:30 o'clock this morning for an increase in wages.

It was, however, explained by one of the men that the strike was a protest against the railroad committeee for failing to secure the increased wage scale asked for by the men. The increased scale is a flat rate of eighty-five cents an hour.

As a result of the strike every wheel at the Potomac yards came to a stop. Those who are on a strike include car men, blacksmiths, sheet metal workers and boilermakers.

The strike was not, however, authorized by the American Federation of Labor and is purely local.

The present pay provides for a sliding scale with a minimum rate of forty-five cents an hour and a maximum of seventy-three cents an hour.

The men reported at the yards at 7:30 o'clock this morning and simply walked out.

The walkout of the men left only the laborers and clerical force in the yards.

It was at first reported that the employees of the Southern would go out on a sympathetic strike. Union men at these shops, however, denied that they contemplated any such action.

A meeting of the strikers was held at 10 o'clock this morning in the hall of the Alexandria Trades Council in this city. Addresses were made by a number of those present.

The opinion prevails that a satisfactory settlement will be reached and it is believed that the men probably will return to work tomorrow morning.

At the Potomac yards the officials stated this morning that the indications are that the strike will be adjusted within a few hours and that most of the men will return to work tomorrow morning.

An official of the state federation of labor who was present today stated that he had every reason to believe that a satisfactory adjustment would be made and that the men would soon return to work.

When the Gazette went to press this afternoon the men were still in session. This afternoon they were addressed by Mr. Walsh, of the Department of Labor, and Mr. Knight, of the American Federation of Carmen. Both of the speakers urged the men to return to work pending an adjustment of the alleged differences.

FOR HOSPITAL

Lawn Fete Yields $60.50

The Board of Managers of the Alexandria Hospital wish to thank through the Gazette the Alexandria helpers of the Mt. Vernon District for their gift to the hospital.

This band of young people made $60.50 at a lawn party and sent the money towards furnishing and screening the large upstairs porch at the hospital, thereby affording a delightful place for rest and comfort for the convalescents and sick patients during the hot summer months.

This is a lovely and much needed addition to the hospital.

ARREST OF POSTMASTER

Charles T. Shillingsburg, of HighlandSprings, on Theft and Arson Charge

Postmaster Charles T. Shillingsburg, of Highland Springs, Va., was arrested last night for the alleged robbery of his own postoffice and setting it on fire. According to Sheriff Webb W. Sydnor, of Henrico County, who made the arrest of Shillingsburg in company with Postoffice Inspector Dickerson, the postmaster admitted his guilt.

Yesterday morning when the postoffice was opened it was found that the safe had been robbed of $250 in currency and that all records, postage stamps and war savings stamps in the office had been piled in the middle of the floor and burned.

The supposed thieves made their entrance through the rear door by means of a pass key and worked the combination of the safe with apparent ease. Papers in the pile of rubbish, which had evidently been ignited with the intent not only of destroying them but of setting the office on fire, were still smoldering when the robbery was discovered. Only the fact that the building was fireproof evidently saved it from complete demolition.

Sheriff Sydnor and postoffice inspectors were summoned to the scene at once. At 8 o'clock last night Shillingsburg was arrested and taken to the Henrico County jail.

Why the records had been destroyed by the postmaster as is alleged, Sheriff Sydnor declined to discuss last night.

"FREE STATE" STILLS RAIDED

Over 200 Gallons of "Moonshine" Taken by Officers.

Luray, Va., June 17.—Officers of the Internal Revenue Department Sunday evening captured in wholesale fashion the outfit of two illicit distillers in what is known as "The Free State," a wild and rugged portion of the Blue Ridge, in Rappahannock county, 15 miles east of Luray. In one of the plants more than 150 gallons of whis-whisky were taken, while at another establishment, run on a more modest scale, about half the amount was taken. The operators are said to have made good their escape, a fact easily understood when the nature and isolation of the places are known. "The Free State" for years has been known as the abode of the moonshiner, who plys his business almost unmolested by reason of his isolation from the outside world. The raid is said to have been made by three officials of the department, who for several days have been in Luray and who were supposed to have been ministerial students. To reach the place from Luray a ride of 15 miles through the most rugged portion of the Blue Ridge has to be made and no official of the department ever undertakes the trip without local assistance, a feature of the present capture.

HANGS HIMSELF IN JAIL

Petersburg, Va., June 17.—George Ranson, about 70 years of age, who was committed to the city jail Sunday on a charge of lunacy, was found dead in his cell this morning, his body hanging by a leather belt from one of the bars of his cell. It is said that Ranson Sunday had been prevented from jumping into the canal at Farmdale Park.

U. S. TROOPS ARE OUT OF MEXICO

Villa Said To Be Preparing To Make Reprisals

LURKING IN THE HILLS

Rebels Expect to Operate in Small Bands, Raiding American-Owned Property When Possible.

El Paso, Texas, June 17.—American troops are out of Mexico today, but Francisco Villa, rebel chieftain, is reported as preparing to make reprisals for the inglosious defeat he suffered at the hands of American forces at Juarez yesterday. The bandit leader, completely routed at Juarez, is lurking in the hills to the southeast, where he fled with the American cavalry pounding at his heels.

Villa, it is feared, will make it his business to carry on guerrilla warfare in the hills, with American mines and smelters as his chief victims. Villista forces are expected to operate in small bands, raiding American-owned properties wherever possible, and occasionally swooping down to attack small border towns.

The action of the American forces in swiftly taking the field to drive Villa away from Joarez definitely prevented the bandit leader from accomplishing his object of capturing and controlling that important border port. Villa's changin at this defeat, it is believed, will lead him to seek revenge and imperial American lives and property.

Hostility against the Americans is prevalent throughout the entire border district, it is declared today, and is not confined to Villistas, the Carranza forces sharing in the resentment over yesterday's invasion by the Americans.

VIENNA COMMUNISTS RIOT

Eight Killed and 66 Injured In Clash With Police

Copenhagen, June 17.—In rioting in connection with a Communist demonstration in Vienna Sunday eight persons were killed and 63 injured. The trouble began when 6,000 demonstrants attempted to obtain the release from prison of Communist leaders arrested Saturday.

The police fired volleys in the air and then into the crowd. The demonstrants succeeded in releasing the Communists leaders. Five policemen were wounded.

The city is reported quiet, with the police being supported in maintaining order by troops.

JAILED AFTER FORFEIT

Fredericksburg, Va., June 17.—E. D. Denton, who was arrested here some months ago for selling liquor, forfeited $1,000 in liberty bonds by failing to show up for trial. When his case was called Denton was fined $500 and given six months in jail. Passing through here Sunday in an automobile he was recognized by City Sergeant J. C. Chichester and jailed. In addition to forfeiting his bond Denton will now have to pay the fine and serve the jail sentence.

FLIGHT UPSIDE DOWN

Former Lieutenant Payne Found Ocean Apparently Overhead And Sky Underneath

New York, June 17.—Captain Alcock's reported statement that for some time in the fog the Vickers-Vimy was flying upside down brought forth yesterday an interesting recital of his own similar experience from former Lieutenant C. H. Payne, U. S. N., a member of the Aero Club of America, who saw submarine patrol service during the war at stations all the way from Pensacola to Chatham.

"Patrolling in an R-6 from the Bay Shore Naval Air Station," said Lieutenant Payne, "I saw the fog drifting in and hurried to beat it back. I had not started soon enough, however, and soon found myself in the thick of it. Every landmark, and even the ocean, were blotted out.

"Fog is the great enemy of the airman as it is of the sailor. I shut off my motor, thinking to plane down to where I could get sight of the water. I was watching the compass and the altimeter at the same time, and thought it was odd that the latter instrument showed no marked change in altitude, but wasn't especially concerned because they have been known to get out of order.

"But presently I came out of the fog and got the scare of my life. Apparently far below me as a looked over the edge of the fuselage was the sky, and overhead, not so far away was the the Atlantic ocean. There was no peculiar physical sensation, but it was a tremendous mental shock.

"It took me a few seconds to realize what had happened. Then came the understanding that in trying to plane down through the fog I had turned completely over and was flying upside down. I tried to start the motor but the gasoline refused to feed, so I went into a sideslip, got right side up again, and lost no time in getting to the surface of the water. I hit it inside of Fire Island and taxied home.

STUDENT SHOOTS SISTER

Hears Suspicious Noise Downstairs And Fires Shot Without Warning

Philadelphia, June 17.—Firing in the darkness down the stairs of his home at a form he thought was that of a burglar, Otto Borngesser, a 17 year old student at the University of Pennsylvania, shot and seriously wounded his sister, Marie, 23 years old, about 1 o'clock yesterday morning. Although the weapon was only a 22 calibre rifle, the wound is serious, the bullet piercing the left side. She is in the Presbyterian Hospital where it is said her condition is serious. The lad, a slight nervous boy, is tremendously broken up over the tragedy. He was arrested and released on $1500 bail to await the result of his sister's injuries.

HUNS DECLARE "WE WON'T SIGN"

Party Leaders Emphatic in Saying They Will Reject Treaty

ASSEMBLY PROTESTS

Count Von Brockdorff-Rantzau, Head of German Delegates Reaches Weimar From Paris.

Berlin, June 17.—"We won't sign!"

Stripped of all verbiage, these three words constitute, almost without exception today, the reply of Germany's leaders to the allied peace terms. While they have not yet been able to study the treaty after its final modications, party leaders and those of the national assembly were emphatic that the treaty will be rejected unless the allied answer meets the German counter proposals. It is among the national assembly, which will unquestionably determine Germany's final answer, that the loudest protests are made.

Count von Brockdorff-Rantzau, head of the German delegates to Paris, reached Weimar this afternoon with the entente answr.

The course which the government will take in its consideration of the treaty was not announced officially but it is understood that it will be turned over as quickly as possible to the national assembly which will sit as a body in its consideration.

Leaders interviewed today were members of the peace committee of the National Assembly, before whom the treaty probably first shall come. Their statements reflected the sentiment of their respecive parties.

All leaders declared flaty that they would not sign.

APPEAL FOR AID

Facts People Need to Know Concerning the Children's Home of Virginia

Ten thousand of Virginia's little children, many of them belonging to our soldiers and sailors, are in unfortunate conditions, and need homing.

The society was chartered by the Virginia Legislature in 1900.

The society receives no aid from the state. It is supported entirely by voluntary offerings.

The work is inter-denominational, and is worthy of the aid of every person.

Who would not help to save a helpless, innocent child?

The work of this society is supplementary to the work of our orphanages and other children's institutions. The work does not conflict. In round numbers twenty-five hundred (2,500) little children have been gathered up, aided or homed.

Last year, ending May 1st, 1919, (1,640 were aided, handled or homed in one year.

The recent epiemic of influenza is sending hundreds of motherless or fatherless little ones to our doors.

This is a plea to YOU to help. The call is in the name of the one who said, "Suffer the little children to come unto Me."

Christian homes are found for these children.

The society has over (1,148) who belong to it legally.

The need is imperative—a receiving home a necessity.

The campaign for funds with which to purchase the buildings is to be held June 10-25, 1919. Every one help.

KILL FRIEND

Chicago, June 17.—In demonstrating the Dempsey knockout blow which is expected to win the championship from Willard, Edward Foss of 2744 Shields avenue, killed his friend, Frank Feeney, of 2722 Normal avenue, Saturday. The Dempsey-Willard fight had been the topic Foss declared that Dempsey would win by a knockout. Fooney said he would bet his life on Big Jess.

"Jack will deliver the knock out like this," said Foss, shooting a blow to Feeney's chin. Feeney fell to the sidewalk and died.

GERMANY STILL DEFIANT

Officials in Berlin Assert Revised Pact Will Nt be Signed

Berlin, June 17.—A canvass of officials qualified to speak for absent Government officials adduced the blunt, positive statement that unless the revised proposals statement of the Entente nations contain most radical modifications in spirit and in letter Germany would not sign the peace treaty.

While the postponed delivery of the Entnete reply was looked upon as a favorable omen, although on dangling from the most slender thread, it may be said that the Government, so far as it is still represented in Berlin, is not indulging in the luxury of undue illusions as to what the next 48 hours will bring forth.

Alleged modifications in the draft of the treaty, as reported to Berlin through neutral news sources, are rejected in official quarters here as wholly insufficient to warrant the prediction that the Government will be inclined to subject them to close scrutiny.

Emphasis also was placed on the statement that the cabinet, which now is fully represented at Weimar was absolutely united in its attitude and that there was on prospect of an internal division which might break up the present Government and produce a new ministry.

"AS OTHERS SEE US.

Visitors to Alexandria increase annually. Many are seen on our streets daily, and in this era of automobiles thousands come here annually who probably up to recently did not know Alexandria is upon the map. A visit to the national capital invariably carries with it a run to Alexandria.

Recent visitors, many of whom have been here on other occasions, are struck with the remarkable transition which has taken place here in less than two years. A writer in the Norristown, Pa., Herald a few days ago ago said:

"Alexandria, Va., is a thriving little southern city with a historic background. The city can never decide of which it should be proudest—its prosperous present or historic past. As a rule it divides its pride equally between them. Several times it has been given an opportunity to become part of the District of Columbia and proudly refused.

"Alexandrians will show you with equal pride their busy shipyards and harbor and then escort you to one of their ancient landmarks, such as Christ Church or the Carlyle House. Christ Church is sacred to the memory of the south's two greatest heroes, Washington and Lee. The Washington and Lee pews in the churchr are side by side, their names marked by silver plates. Twin mural tablets on the church's wall are inscribed to their memory. The chancel rail is the one before which they knelt, the tablets of the Lord's prayer and Apostle's Creed were there in Washington's time. In the vestry room relics of the heroes are preserved—the record of their purchase of their pews, the Bible and the long handled purse used in Washington's time for the offerings.

"The congress of Alexandria met in the old Carlyle House, over twenty years before the battle of Lexington was fought. It was the first protest against "taxation without representation" held in Virginia. It was in this same old mansion that the Braddock expedition was decided upon. Washington was a frequent visitor to the house. His diary has often the words: "Lodg'd at Col. Carlyle's."

GOD OLD DAYS OF YORE

The opening of the shad season this year moved J. R. Warren, of Lyme to write to the New London Conn., Day as to the increased cost of that fish and he notes that an order of broiled shad with half a shad roe now means a waiter's check for $1.50. Then he writes:

"The writer remembers when the river was full of shad and they were there for the catching. Prices were within the reach of all and vendors were selling shad in all the back towns for 20 and 25 cents apiece for the best. Residents of Norwich, Lebanon, Franklin and Colchester used to drive to the river meadows and carry away all two horses could draw. They peddled on the way home and salted the remainder for home consumption."

The Hartford Conrant in commenting upon this says "what Mr. Warren writes as to the river fishermen is equally true of the Sound fishermen between the mouth of the river and New Haven 50 years ago. As a matter of fact, the shad was not esteemed above all other fish even as late as 1870. Farmers who manned a pound o rtrap taking fish for fertilling purposes cared as much for a flounder as they did for a shad, especially as the latter fish could be eaten more rapidly than the now expensive shad."

Many years ago, but within the recollection of thousands now living, shad at the height of the season sold in Alexandria at 25 cents a pair. Indeed during the latter part of the forties and the beginning of the fifties they sold at 12 1-2 (what was known as a levy) a pair.

Shad will never be cheap again hereabouts, and the explanations is simple. In ante bellum days virtually all caught on the Potomac were brought to Alexandria in sailing vessels. The market soon became gutted and prices declined. It is not so now. Shad caught in most parts of the river instead of being sent to Alexandria are placed on fast trains or steamers and sent to the larger cities where they are soon disposed of at fancy prices.

WHAT IS MAN?

The Electrical Experimenter of New York contains the following which shows we are fearfully and wonderfully made:

"A man weighing 150 pounds will contain approximately, 8500 cubic feet of gas—oxygen, hydrogen and nitrogen—in his constitution which at 80 cents a thousand cubic feet would be worth $2.80 a thousand cubic feet would be worth $2.80 for illuminating purposes. He also contains all the necessary fat to make a fifteen-pound candle, and thus, together with the 3500 cubic feet of gases, he possesses considerable illuminating possibilities. His system contains 23 pounds and 10 ounces of carbon, or enough to make 780 dozen, or 9360 lead pencils. There are about 50 grains of iron in his blood, and the rest of the body would supply enough of this metal to make one spike large enough to hold his weight. A healthy man contains 54 ounces of phosphorus. This deadily poison would make 800,000 matches or enough poison to kill 500 persons. This, with 2 ounces of lime, makes the stiff bones and brains.

However sour a man may look, he contains about 60 lumps of sugar of the ordinary cubical dimensions, and to make the seasoning complete there are 20 spoonfuls of salt. If a man were distilled into water he would make about 38 quarts, or more than half his entire weight. He also contains a great deal of strach, chloride of potash, magnesium, sulphur and hydrochloric acid in his wonderful human system.

"Break the shelf of 1000 eggs into a huge pan or basin and you have the contents to make a man from his toenails to the most delicate tissues of his brain."

BERGER AND RIGHTS OF PEOPLE

From Washington comes the report that the counsel for Victor Berger, the Milwaukee Socialist, "boldly" challenged the right of Congress to deprive that misrepresentative of his claim to sit in the American House of Representatives.

There is nothing bold in this so-called challenge. It is simply asinine. There never has been a time that Congress has not exercised the right to determine its own membership. In this case the dispute arises from the fact that Berger has been convicted of violation of the Espionage act. Any man with a sense of decency and the fitness of things would decline to present himself for admission to Congress in the circumstances.

The chairman of the Special Elections Committee, which has been named to pass on the credentials of the convicted man very properly announces, that Berger is to be given a fair, full and impartial trial, but it would be folly to assume that that means his admission regardless of the facts in the case. Berger has his rights but the American people also have their rights and to say that a man who openly and defiantly flaunts the laws of the country has the right to sit as a lawmaker is utterly preposterous. If he is guilty—and a jury of his fellow-men have already declared his guilt—then his place is in prison instead of in the United States Congress. Nothing illustrates the tolerance of public opinion in this country better than the fact that Berger is to be given a chance to give his side of the case after he has been duly convicted in an American court.

Martyrs are sometimes created out of very unpromising material, but it will take a pretty wide stretch of the imagination to look upon the Milwaukee man in that light.—(Philadelphia Inquirer.

BIG FOUR'S LAST WORK

Saturday Final Day for Berlin—Foch Ready With Sword

Paris, June 17.—The big four's last word about peace terms was handed to the German delegates shortly before 7 o'clock yesterday evening.

Its delivery was delayed by a several hours' wrangle over one of the chief concessions—civilian control of the occupied Rhine districts.

Again France's "Tiger" won his point, after a long and fiery debate. The concession was stricken from the amended document.

With the revised treaty, Paul Dutasta, secretary of the Peace Conference, handed Count Brockdorff-Rantzau a 4,500 word "covering" letter written by Clemenceau.

It is a bitter denunciation of Germany's bickering attitude, a stinging recapitulation of her war crimes, an explanation of the treaty modifications, and an ultimatum.

It tells the Germans flatly that no further attempts at bargaining will be tolerated, that they must answer yes, or no, and do so within five days.

This means that by 6 o'clock this coming Saturday evening she must notify the powers, without any ifs or butts or howevers, whether she will or will not sign.

If her answer Saturday is yes, the diplomatic and ceremonial machinery will be set in motion for the greatest green-table event in history, and the world will have peace not later than a week from tomorrow.

If she says no, five days hence, than the peacemakers will lay aside their pens and tell Foch to go ahead. His sword is sharp and half unsheated, ready for the "coup de grace."

Foch would promtply inform the Germans by wireless that the armistice is off, and the war will be on again beginning at 6 o'clock Tuesday night, June 24.

The three fateful days between Saturday and Tuesday are the last in which the Germans may choose between utter militaro-economic subjection and peace.

Paris, June 17.—Here is President Wilson's attitude toward the revised peace treaty with Germany, as outlined last night by one of his closest friends and confidants:

"The peace treaty is just. Naturally it is severe. However, we must always remember that Germany provoked the war and committed indescriable atrocities and outrages.

"The bill for these now is presented to her. She must pay. We whil not bargain. Rather than bargain we shall acceept non-signature."

FINAL CHANGES IN TREATY

Changes included in the final terms to the Germans as delivered yesterday by the Allies are:

A plebiscite for upper Silesia with guarantees of coal from that territory.

Frontier rectifications in West Prussia.

Omission of the third zone in the Schelswig plebiscite.

Temporary increase of the German army from 100,000 to 200,000 men.

Declaration of the intention to submit within a month of signature a list of those accused of violations of the laws and customs of war.

Offer to co-operate with a German commission on reparations, and to receive suggestions for discharging the obligation.

Certain detailed modifications in the finance, economic and ports and waterways clauses, including abolition of the proposed Kiel Canal clause.

Assurance of membership in the League of Nations in the early future, if Germany fulfils her obligations.

ROBS FRIEND OF HIS EYE

Gipes Him Firecracker for a Cigarette, it Explodes in Man's Face

Coatesville, Pa., June 17.—A practical joker who wrapped a firecracker in rice paper and handed it for a cigarette to Harry Mateer, cost him the loss of an eye yesterday. The young man's face is also badly disfigured.

Mateer was visiting at a resort on the Brandywine, near here, and he asked a friend for a cigarette.

It exploded in his face when he applied fire.

FATHER'S TERRIBLE CRIME

Elkton, Md., June 17.—How the father crushed "big brother's" head with blows from a sledge hammer as one boy lay sleeping, was the story told States Attorney Clayton yesterday by one of the trio of terrified little ones, children of Guisgpi Guilino, 60 years old, a farmer living near here.

The murder was committed Saturday morning, about 4 o'clock, Samuel, 14 years old, leaped from bed with the death cry of his brother, Vincent, 19 years old, ringing in his ears. At the command of his father, he stood by while the the latter dragged the body down stairs, carried it in a wheelbarrow to a potato patch and there buried it.

After returning to the house, the father gathered up the boy's clothing and hid it in a clump of bushes, meanwhile telling his three younger children to say that Vincent had packed his effects and left the house a week previous.

When Tony Guilino, the oldest son, who lives at West Chester, Pa., came home Sunday morning he noticed something wrong. For several hours he could not comprehend what had taken place. Blood stains in the bedroom and on the porch so aroused him that he came to Elkton and asked Sheriff McAllister to investigate.

Careful questioning brought details of the orgy from one of the children, and the father finally broke down and confessed.

Guilino was brought to Elkton jail When pressed to tell why he murdered the boy, the father stated that his son had ill-treated him, by throwing a pail of hot water in his face several weeks ago, and he swore to "get even."

INJURED ENGINEER DIES

Was Hurled Through Cab Window When Engine Fell in River

Lynchburg, Va., June 17.—Thomas E. Sydnor, aged 45, Chesapeake and Onio freight engineer, who was injured when two fellow trainmen lost their lives near here Thursday, when his engine went into the James river, died Saturday, double pneumonia being a contributing cause of his death.

In lucid moments before his death the engineer told a remarkable story of his escape from instant death by being crushed and by drowning. When he noticed the slide ahead of his train he applied his emergency brakes, rising to a standing position at the time. The derailment threw him back to his seat and as the engine plowed into the swollen river he was hurled through the cab window. In this fall he fractured several ribs and crushed his liver. Coming to his senses after the first shock, Sydnor thought he was pinned under the water, but quickly released himself. He found footing on the cylinder of the engine and was found there standing in the water to his arm pits. The surviving train crew found a wire, fastened a stick at one end and threw it to the engineer. He caught the stick the first time and was drawn to the bank. Sydnor then walked a mile to Coleman's Falls, where he collapsed.

Sydnor is survived by his widow and four children, who live at Clifton Forge.

MASTER BANDIT MAKES BOW.

Directs Associates to Take Their Time Cleaning Bank of $50,000

Cleveland, Ohio, June 17.—A dozen posses are searching for five bandits who late yesterday afternoon pulled off the most sensational bank robbery in the crime annals of Cleveland.

Lead by a master bandit who bossed the job as coolly as if he were directing a pink tea affair, they cleaned the coffers of the West-Cleveland Bank, escaping with $50,000 in a stolen automobile.

An automobile drew up in front of the bank as the treasurer was closing the doors. The leader of the bandits covered him with a gun and ordered him to enter the bank with hands lowered.

Once inside, the bandits whipped out revolvers and covered ten bank employes and customers. When the locters reported to the boss after fifteen minutes' work that they were through, he ordered them to take another lock, remarking that there was no hurry. Finally he ordered men and women held at bay to fall in line.

The ten persons were marched to the vault. Upon reaching that point, the bandit evidently changed his mind about locking them up.

"You have behaved pretty well," he declared, "guess I'll let you go."

He then joined his three companions and in a leisurely manner the four walked to the waiting automobile. The driver had the engine running and they drove off immediately.

CRIME IN WASHINGTON

More Wicked Now Under "Bone Dry" Conditions Than in 1917

Washington is nearly 50 per cent more wicked now with the city "bone dry" than it was when the saloons were open in 1917, according to facts and figures in possession of Chief Clerk Frank A. Sebring of the Police Court.

To date, there have been 20,668 arrests in "bone-dry" Washington and the year isn't quite half gone. This figure, compared to the first six months of 1917, when "booze" was easily obtainable, shows a difference of 7,150 arrests in favor of 1917, the number of arrests for the first six months of that year being only 13,138.

At the present rate at the close of 1919 will have seen recorded more than 42,000 arrests, according to comparisons by Sebring.

OPPOSES PUBLISHING TEXT.

Washington, June 17.—President Wilson, responding to the Senate resolution asking for the complete text of the peace treaty, advised the Senate through the State Department yesterday that he did not consider it in the public interest to trasmit the treaty text at this time because it was incomplete and many delicate points were under negotiation.

Seantor Johnson (Republican) of California, author of the resolution adopted June 6 indicated that he would discuss the President's reply in the Senate latter.

Says Phosphates Make Beautiful Women and Strong Healthy, Vigorous, Robust Men.

Physicians all over the world are prescribing phosphates to build up run down enemic conditions and those who have treated their patients with Argo-Phosphate are changing thin, anemic women with toneless tissues flabby flesh, into the most beautiful rosy cheeked and plump round formed women imaginable.

Atlanta, Ga., Dr. Jacobson said in a recent interview that 90 per cent. of anemia comes from nervous breakdown which can only be corrected by supplying the necessary phosphates to the nervous system that is lacking in the food you eat, and this can be quickly supplied by taking one or two 5-grain Argo-Prosphate tablets after each meal, and at bed time. It will in many cases make a pale scrawncy face the picture of health in a few days, I have seen women that I expected would have to be kept under treatment for months restored to perfect health in one or two weeks time.

SPECIAL NOTICE. The Argo-Phosphate recommended by Dr. F. H. Jacobson contains phosphates such as are prescribed by leading physicians throughout the world, and it will be found the most effective form for treating patients with Nervous Dyspepsia, Stomach troubles, Brain Fag, and Nervous Prostration. It will renew youthful vim and vigor, and build up the whole body. Argo Phosphate is dispensed by Richard Gibson and The Rexall Store. Free sample mailed by the Argo Laboratories, Atlanta. Ga.

2 3-4 BEER APPROVED

Essential in Some Medical Cases, They Say—Also Approve Wines

New York, June 17.—"Two-three-four" beer yesterday received the indorsement of the Allied Medical Association of America, whose members, representing every recognized school of medicine, were in convention at the Pennsylvania Hotel.

A resolution, unanimously adopted, declared that beer, properly brewed from an asepsis essential in certain cases. The resolution also declared that beer having an alcoholic content not exceeding 2 3-4 per cent by weight, is beneficial to humanity and is admirably adapted as a substitute for stronger alcoholic drinks and as a variant for the large number of so-called soft drinks.

Light wine, if pure, was also indorsed by the convention as beneficial in the treatment of certain cases

THEATRES

GRAND THEATRE

Bartered by her father for a gold stake, Sue is the loneliest and most pathetic figure on Hollow Plains, as the wife of Ira Beasley, doomed to live and die a drudge, unloved and unloved. Then comes to her just a fleeting glimpse of what Love might be, but Love is not for Sue; and her romance is carried away on the winds to which she listens all day long, but which never tells her anything.

Such pitiful prairie romance is told in "The Dawn of Understanding," the Vitagraph Blue Ribbon Feature, which will be seen at the Grand Theatre tonight. Also a comedy.

Richmond—"The Divorce Trap."

Gladys Brockwell in "The Divorce Trap" will be seen today at the Richmond Theatre. The picture has given rise to much discussion regarding the divorce question. It tells a gripping story of the abuse of the law by unscrupulous men and women. Gladys Brockwell portrays with wonderful power the emotions of a woman who fights against their evil schemes.

So Big And Yet So Small!

Seen by itself, Swift & Company is one of the largest manufacturers and distributers of animal food products in the country.

Seen in relation to the total food business of the world, its size diminishes to small proportions.

We handle only about 22 per cent of the total output of the hundreds of packing plants under federal inspection, and only about 12 per cent of the total meat supply of the nation.

We handle only about 6 per cent of the total quantity of butter, eggs, and poultry sent to market in the United States.

Our tanneries handle less than 15 per cent of the hides made into leather in the United States.

Our soap factories make less than 10 per cent of the soap output of the nation.

This is done in keen and open competition with every concern handling these products, and at a profit of a fraction of a cent per pound.

In the meat packing industry there is no one dominant concern handling a large proportion of the output.
